April 29, 2010 – Leading ISA Server resource site, ISAserver.org, announced today that [bt-WebFilter](#) was selected second runner-up in the [Access Control](#) category of the ISAserver.org Readers' Choice Awards.

"Our Readers' Choice Awards give visitors to our site the opportunity to vote for the products they view as the very best in their respective category," said Sean Buttigieg, ISAserver.org manager. "ISAserver.org users are specialists in their field who encounter various solutions for ISA Server at the workplace. The award serves as a mark of excellence, providing the ultimate recognition from peers within the industry."

ISAserver.org conducts bi-monthly polls to discover which product is preferred by ISA Server administrators in a particular category of third party solutions for Microsoft ISA Server. The awards draw a huge response per category and are based entirely on the visitors' votes. ISAserver.org users can submit their votes for the current Readers' Award poll in the site's left-hand bar.

About bt-WebFilter

Burstek's newest release of bt-WebFilter offers full 64-bit compatibility, support for Microsoft Forefront TMG, Windows 7, Windows Server 2008, and Essential Business Server 2008. bt-WebFilter is a robust application comprised of 60+ pre-defined categories, real-time monitoring, AD support, quota management, replication, and more.

WebFilter's main functionalities are the Access Policies; designed to support the level of content management you wish to deploy. If you wish to block certain websites being viewed on corporate systems, you can filter them with a single click. Since WebFilter is Active Directory aware, you can create 'Access Policies' based on your existing groups. The ability to exclude nested groups from policies allows for complex Active Directory environments to be filtered as desired. Burstek's sophisticated suite of filtering, blocking, monitoring, and reporting solutions will help you manage and secure your network environment - easy to use, flexible, and customizable for both small and large user counts. Try our fully functional evaluation today.

About ISAserver.org

ISAserver.org (<http://www.isaserver.org>) is a Microsoft ISA Server 2006/2004/2000 resource site.
